BRAND BOARD

Madam, this way—into the world of color... Shall we take a glance at the new season? Ah! Such colors they are.

ABOUT US.

At Kinga Lingerie, we believe that the heart of good lingerie lies in its quality and construction. Thanks to advanced technology and the dedication of skilled specialists from Poland and abroad, we maintain high production standards. Our women's lingerie, produced in Poland, is a result of top-tier craftsmanship, allowing us to proudly label our products "Made in Poland".

Inspiration and the constant pursuit of excellence shape our collections, which reflect the latest global trends.

Participating annually in the Paris International Lingerie Fair (Salon International de la Lingerie) allows us to continuously enrich our range with fashionable models each season.

Our designs- known for colorful embroidery, lace, and creative approach to design- are made for women who value not only beauty, but also functionality and comfort.

EXPERT LINE.

We fell in love with the basic line. We fell out of love. Then we completely reinvented it.

Contourbra- a master of camouflage and optical shaping. Its innovative underarm lace panel smooths out imperfections around the armpits and back, creating a seamless silhouette under clothing.

Skinbra- breathable and masking, ideal for everyday wear. It adds gentle volume while allowing air circulation and masking nipples.

Smartbra- one bra, many roles. A wireless, sensory- friendly bra that can be used for nursing, as a sports bra, or as everyday wear.

STRATEGY.

Such a highly developed awareness enables the combination of sustainability with the freshness of a collection that meets the market's needs.

The lace that customers have fallen in love with reappears in the next season, featuring a new construction and eye-catching design.

Is this a modern take on "vintage"? It's an awareness that allows us to listen to and respond to external voices.

The knowledge our partners gain evolves and remains effective not just for one, but for several seasons, allowing it to firmly establish its position and helping salon owners navigate more confidently through the vast range of products offered by all manufacturers.

What truly captures our attention is leveraging your skill in selecting familiar constructions already available in the latest collections-

because if you know Kinga lingerie, then even visually recognizable bras will be a novelty and a mystery, a space where you can move with expertise. Using your experience and introducing your own narrative not only allows you to play the game but also to make decisive choices.

Our strategy is based on your awareness in assortment selection, with a focus on sustainability and not just presence, but on setting trends.

We don't shelve what conquered the market in the previous season.

An awareness of each product's market position allows us to manage the collection in a way that brings its strongest pieces back in future seasons- in new colorways and with designs aligned with current trends.

New Collection.

CATALOGED DREAMS

Silence, light, the line of the body. In this collection, time flows slower- and to your advantage.

A story of lingerie woven from bold colors and familiar shapes. For years, Kinga lingerie has surprised with innovative solutions and distinctive details.

Will this collection be noticed? One thing is certain- it will be remembered.

Frutta Sensuale is a set adorned with a large golden flower that promotes the latest collection.

We've moved from an era of meticulously hiding lingerie, through revealing what we wear beneath our clothes, to now presenting a collection where unapologetic detail takes center stage like an egocentric focal point.

This approach emphasizes its own narrative and strong design identity, set by Kinga lingerie.

What goal did we set when designing this collection?

A noticeable improvement in the bust's shape.

Yes, it can be achieved with lingerie.

And more! We can sprinkle each lady with a touch of glitter while doing it.
